

XI(SEAN) CHEN

xchen4@umass.edu(citations 200+) \diamond <https://melongone.github.io/>

EDUCATION

University of Massachusetts Amherst	Amherst, MA
• PhD in Computer Science (GPA: 3.9/4)	2019-present
Central South University	Changsha, China
• B.E. in Computer Science (GPA: 3.9/4)	2014-2018

EXPERIENCE

Amazon (AGI foudation)	Seattle, WA
Applied Scientist Intern	2024.7 - 2024.10
(Incorporated into Amazon internal LLM with a ICML submission, saliently beat existing methods).	
<ul style="list-style-type: none">• Applied parameter efficient LLM training with Quantized LoRA for scalable model adaptation.• Devised a model merging framework by aligning activation to accelerate multi-task LLM learning.• Implemented adaptive online learning with sample re-weighting for continuous LLM improvement.	
University of Massachusetts Amherst	Amherst, MA
Research Assistant	2019.9 - present
<ul style="list-style-type: none">• Zero-shot learning on LLM with an event retrieval pipeline from global multilingual news database.• Built a transformer-based global news graph with trillions of edges for event detection and recommendation.• Developed the largest multilingual news similarity dataset, leveraging active learning for retrieval and ranking.• Designed a cluster-aware active learning framework for extracting events from temporal graph of social texts.• Applied greedy factor selection and regression to quantify country effects on news similarity.	
University of California, Los Angeles	Los Angeles, CA
Research Intern	2018.7 - 2018.12
<ul style="list-style-type: none">• Modeled the dynamics of opinions and personalities with probabilistic graph time series.• Devised an extended EM algorithm for learning the graph time series and get state-of-the-art performance.	
Zhipu AI (Chinese OpenAI)	Beijing, China
Research Intern	2018.3 - 2018.9
<ul style="list-style-type: none">• Searched and rank scholars with heterogeneous random forest (deployed on prestigious AI platform Aminer).• Clustered and visualize temporal scientific topics with refined genetic algorithm.	

PROJECT

Merge LLM with Online Activation Alignment
<ul style="list-style-type: none">• Developed an activation alignment framework to merge LLMs across diverse tasks (math, coding, medical).• Adapted activation weight for LLM online learning during parameter-efficient training and sampling.
Global Multilingual News Graph Learning
<ul style="list-style-type: none">• Built Rank models for similar multilingual news using rules-based and active learning classifiers.• Designed a global news retrieval system, generating trillion-scale edges with transformers and mutual indexing.
LLM Question Answering Generation for Identifying Disasters
<ul style="list-style-type: none">• Engineered zero-shot learning prompts to optimize LLM precision and recall in news event retrieval system.• Built regression models to quantify country factors with greedy feature selection and event clustering.
Active learning for temporal events from Social Polls
<ul style="list-style-type: none">• Designed a cluster-aware active learning framework to detect temporal events from Twitter poll texts.• Modeled the evolution of social discourse by graph-based topic tracking and statistical analysis.
Personalized Opinion Graph Time Series Learning
<ul style="list-style-type: none">• Model the dynamics of opinions and personalities with probabilistic graph time series.• Devise an extended EM algorithm for learning the graph time series and get competitive performance.

SELECTED PUBLICATION

Adaptive Activation Alignment for Merging Large Language Models

Xi Chen, Yue Zhang, Akshaya Shanbhogue. Submitted to International Conference on Machine Learning (**ICML**), 2025.

International News Synchrony and Diversity during the Start of Covid-19

Xi Chen, Scott Hale, David Jurgens, Mattia Samory, Ethan Zuckerman, Przemyslaw Grabowicz. International World Wide Web Conference (**The Webconf**), 2024.

Detecting Global Disaster Event with Question Answering on Large Language Model

Xi Chen*, Erica Cai*, Brendan O’connor, Przemyslaw Grabowicz. Submitted to International AAAI Conference on Web and Social Media (**ICWSM**), 2024.

Cluster-aware Active learning for Event Identification from Social Polls

Xi Chen, Mayank Bumb, Vishal Kalakonnar, Przemyslaw Grabowicz. To appeal, 2024.

A Multilingual Similarity Dataset for News Article Frame

Xi Chen, Scott Hale, David Jurgens, Mattia Samory, Przemyslaw Grabowicz. International AAAI Conference on Web and Social Media (**ICWSM**), 2023.

Multilingual Document-level Similarity

Xi Chen, Ali Zeynali, Chico Camargo, Fabian Flock, Devin Gaffney, Przemyslaw Grabowicz, Scott Hale, David Jurgens, Mattia Samory. International Workshop on Semantic Evaluation (**@NAACL**), 2022.

Modeling Personalized Dynamics of Social Network and Opinion at Individual Level

Xi Chen, Jie Tang, Yizhou Sun. Preprint on Arxiv, 2019.

SKILL

Core Expertise:

Large language model: RLHF, Parameter-efficient fine-tuning, Model merging, Retrieval-augmented generation(RAG).
Search & Retrieval: News similarity search, Transformer-based retrieval models, Semantic indexing.
Recommendation Systems: Graph modeling, Active learning for ranking, Multilingual content recommendations.
Machine Learning & Optimization: Event detection, Time-series analysis, Probabilistic modeling.

Tools & Frameworks:

Deep Learning: PyTorch, TensorFlow, Hugging Face Transformers.
Big Data & Search: Spark, Elasticsearch, FAISS, SQL.
Programming: Python, C++, R, Java, Linux.

SERVICE

Program Member:

- NAACL(2023)
- ICWSM(2023, 2024)
- SEMEVAL (2022, 2023, 2024)
- IC2S2 (2022, 2023, 2024)

HONOR

NSF Student Travel Award, 2024
UMass CICS best portfolio finalist, 2023.
Research presented at top-tier computer science venues (Webconf, NAACL, ICWSM, TADA, IC2S2).
Nomination for Chinese Exceptional Student (1/6500 ISchool undergrads and grads), 2018.
Ranked global Top50 of Autochess players (50/millions, a world-class strategy game).
